Case Study

80% Fewer Agents. Zero Downtime Surprises.

How Grassroots X Avishkar AI transformed ATM Field Operations for India's largest White Labelled ATM Provider.

80%
Staff Reduction

15,000+
ATMs Deployed

24/7
AI Ops

The Challenge

Uptime Was Entirely Dependent on Human Availability

Slow Response

Tickets sat idle waiting for a free agent during peak hours

Overstaffed Operations

100+ agents needed daily just for manual dispatch coordination

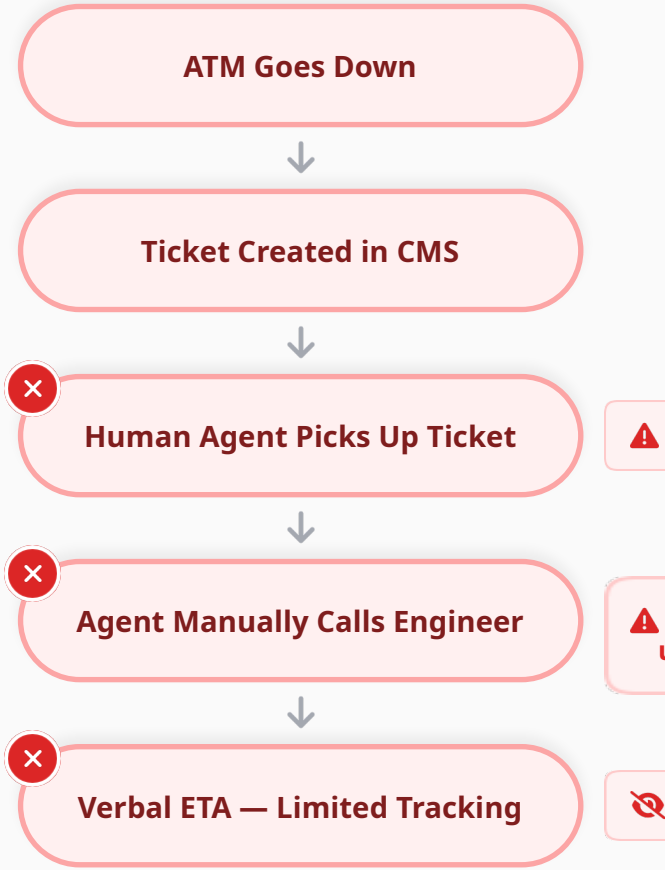
Language Barriers

Engineers across 15 states spoke different regional languages

Limited Visibility

Limited ETA tracking, hard to do 100% compliance

The Old Way



The Solution

AI Agents: Six Steps, Zero Human Touch

Autonomous voice AI agents that plug directly into your existing CMS ecosystem

Scan CMS

Continuous ticket triage & priority routing based on fault type.

Auto-Dispatch Call

Instant outbound call to the right field engineer within seconds.

Local Language

Hindi, Tamil, Telugu, Kannada, Marath
more regional dialects.

ETA Capture

Voice-confirmed ETA, auto-logged in CRM instantly for visibility.

15-Min Follow-Up

Automated pre-arrival check-in call to ensure engineer is on track.

Auto-Escalate

Supervisor notified immediately if wir
missed or ETA delayed.

A Complete Solution. On Your Terms.

Deployed entirely within your infrastructure. Managed end-to-end by us.

01 Hardware

GPU Servers & Edge Compute nodes

Deployed physically at your site

Owned and maintained by Avishkar AI

✓ Fully Provided

02 AI Models

Speech-to-Text, LLM, Text-to-Speech

Runs locally — no data leaves your premises

Supports Hindi, Tamil, Telugu + 10 more

✓ Fully Provided

03 Application

CMS integration, ticket triage & dispatch

Voice agent platform — calls, follow-ups

Real-time monitoring dashboard

✓ Fully Provided

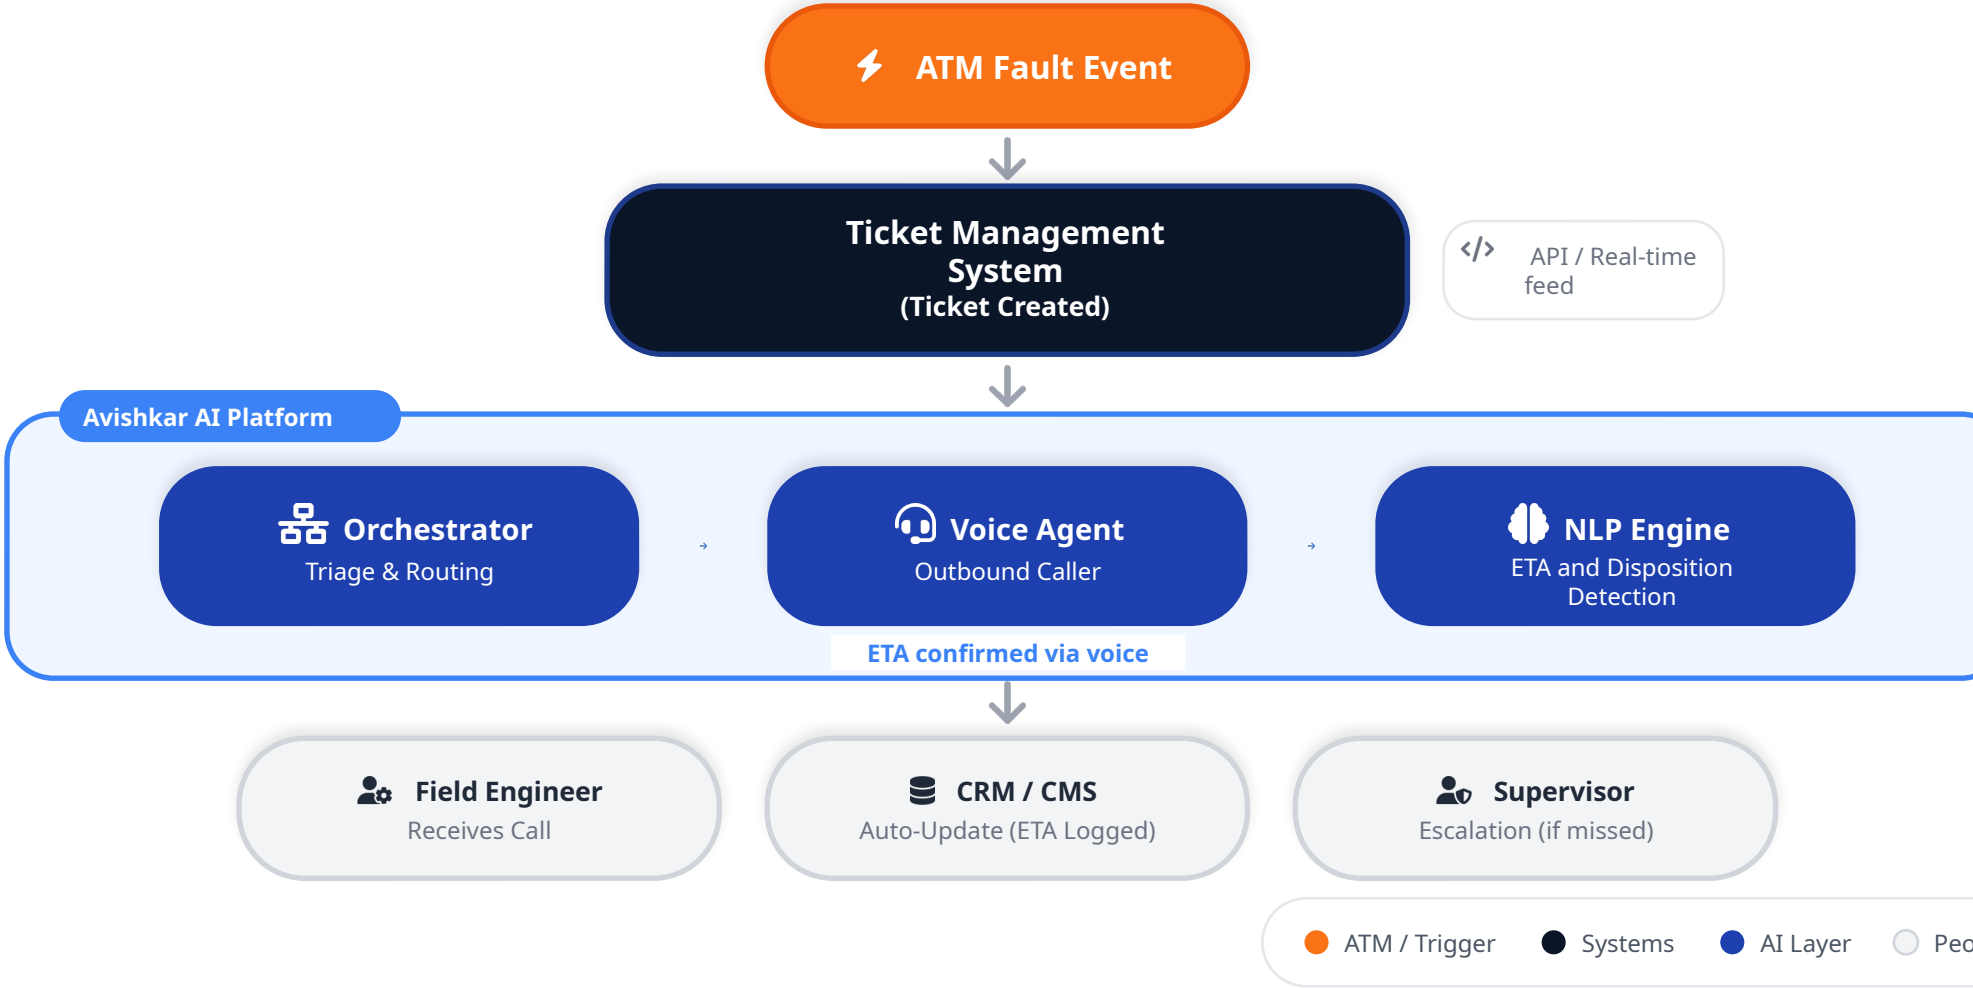
🔒 **Your data never leaves your premises**

🛠️ **We manage everything — setup to operations**

📈 **Scales instantly as your ATM grows**

How It Works

End-to-End Integration Architecture



Results at a Glance

Measurable Outcomes, Real ROI

80%

Cost Reduced

100+ agents → ~20

3×

Improvement in ATM Uptime

45 min → Under 15 min, reduced bank penalties

24/7

Autonomous Ops

Zero human oversight needed

100%

CRM Compliance

Every ticket auto-updated

- Multi-language support across 10+ Indian languages and regional dialects
- Scales to 50,000+ ATMs with zero headcount increase
- Every interaction logged — complete audit trail for compliance

End-to-End Timeline

From Fault to Dispatch — Under 15 Minutes

0:00	0:01	0:02	ETA 5-15mins		On Arri
1	2	3	4	5	✓
ATM Fault Detected	Ticket Created in CMS	AI Scans & Prioritizes	Engineer Called (ETA given)	Follow-up Call Sent	CMS Upd Automat

OLD PROCESS: **Average 45+ minutes**

NEW PROCESS: **Under 15 minutes** ✓
